

Doğuş Power Center Shopping Mall

Garanti Gayrimenkul Yatırım Ortaklığı introduced its new concept entitled “Power Center” in Turkey. Built in Maslak district of Istanbul with a total investment budget of US\$ 61.5 million, Doğuş Power Center offers a different shopping experience to visitors thanks to its unique architecture, large stores and shops, and a wide range of choice and brands.

Sector: Shopping Center

Project Type: 5 synchronized generator sets with a total rating of 5.5 MW.

Customer's requirements

A unique project for Turkey, this shopping mall requires uninterrupted power supply even if the municipal power network fails. Furthermore, its standby power system had to be reliable, economical and flexible.

Solution developed by Teksan Jeneratör

To meet the customer's requirements, synchronized generator sets were selected as a reliable, economical and flexible solution. Their total synchronized power rating was selected to be 5.5 MW.

Results obtained

A 5.5 MW synchronized generator system was supplied and installed at Do_u_ Power Center to ensure uninterrupted operation of the shopping mall.
